# data.census.gov: Changing the Way You Get Data

data.census.gov

# data.census.gov Demo

## 1. Getting Started with Census Data

Example: Geography Profile for Denver County, Colorado

## 2. Searching by Table ID, Customizing Table View, and Saving Results

Example: DP03 and DP02 for Denver County, Colorado, and ZIP Code Tabulation Area 80204

## 3. Searching by Topic, Mapping, and Downloading

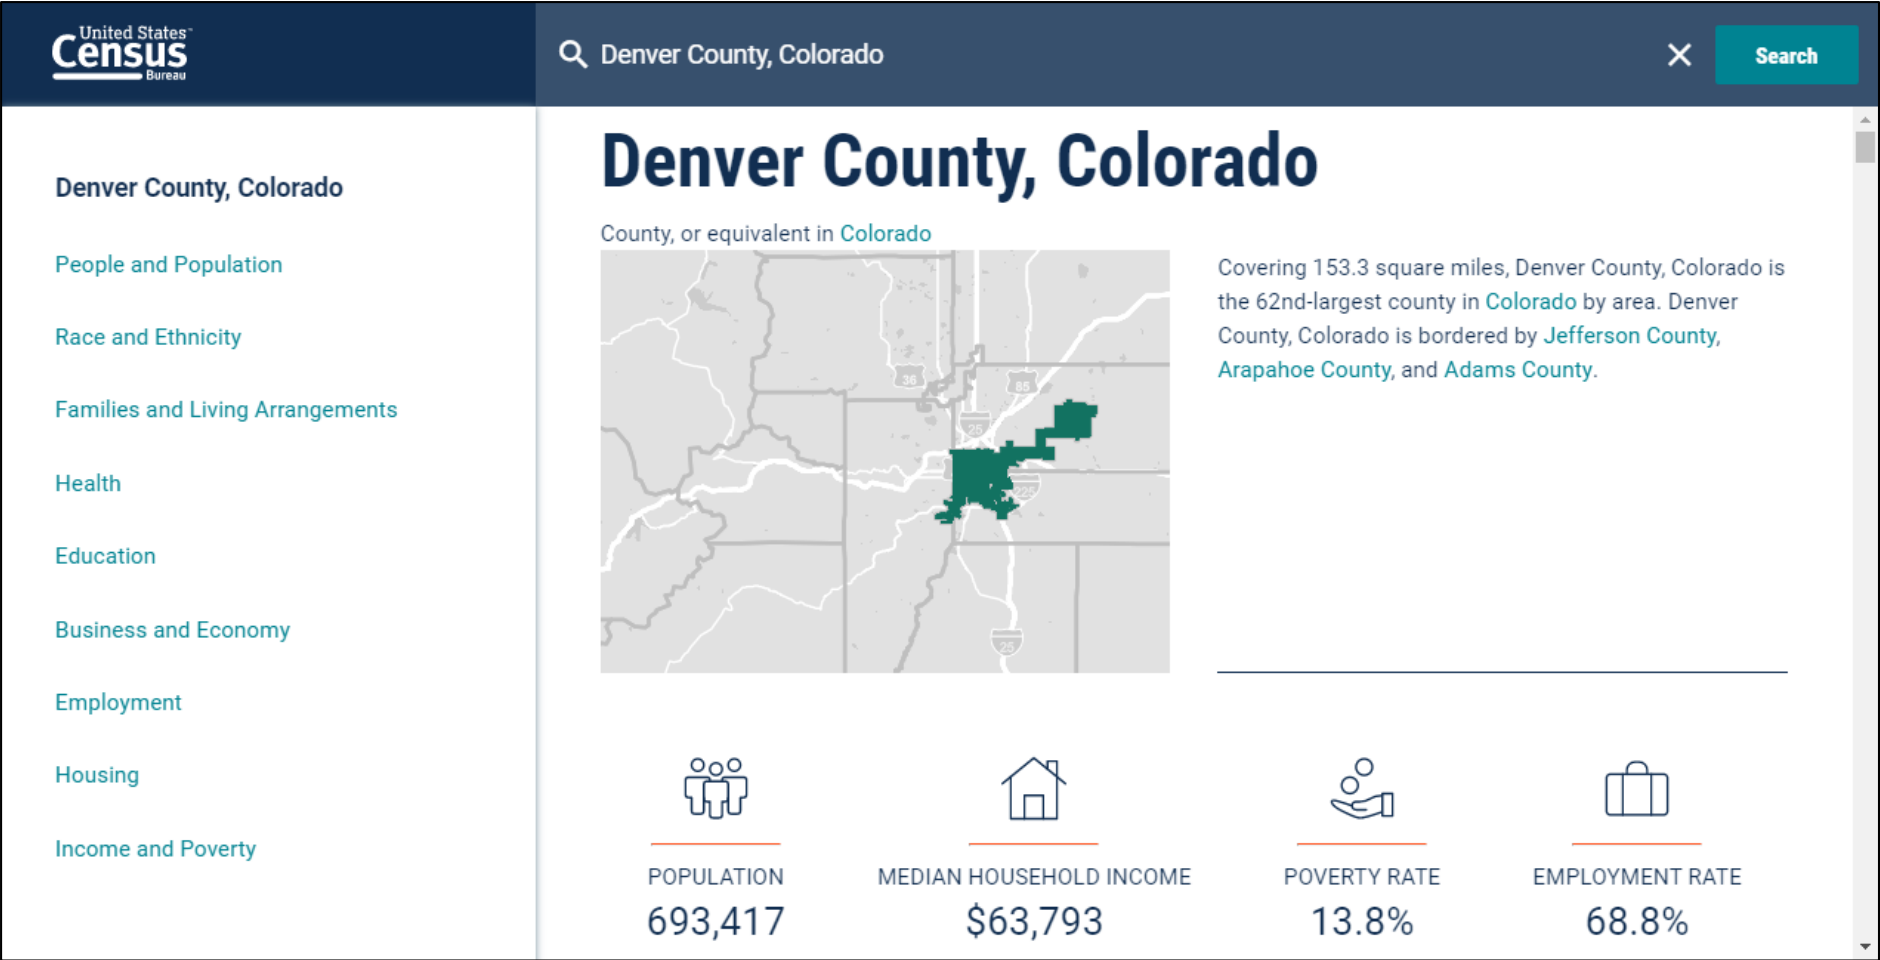

Example: Population 60+ for all Census Tracts in Denver County, Colorado

## 4. Searching by Industry Code/Dataset, and Applying Custom Filters

Example: Number of establishments for nursing/residential care facilities for all counties in CO

# Visualizations of popular Census Bureau data for Denver County

# Specify Table ID

The screenshot shows the 'Explore Census Data' page from the United States Census Bureau. At the top is the 'United States Census Bureau' logo. Below it, the title 'Explore Census Data' is displayed, followed by the text 'The Census Bureau is the leading source of quality data about the nation's people and economy.' A search bar is located in the center, containing the text 'DP03'. The search bar has a magnifying glass icon on the left and a close button (X) on the right. To the right of the search bar is a teal 'SEARCH' button. A red arrow points from the 'SEARCH' button to the right side of the slide. Below the search bar are links for 'Advanced Search', 'Help', and 'Feedback'.

- Type the table ID in the single search bar: **DP03**
- Click **Search**

# Navigate to Table and Click Filter to Add Your Geographies

- Click **Tables** in the upper left
- By default, you will get data for the United States
- Click **Filter** to begin the process to select other geographies

- Click the chevron that says Hide in the upper right to return to the table results page**

# Choose Your Product

- Select **2018 ACS 5-Year Estimates Data Profiles** from the product drop down menu to get data for all of your selected geographies (the ACS 1-year estimates are only provided for selected geographic types that have 65,000 people or more)
- Click **Customize Table** in the upper right

The screenshot displays the United States Census Bureau website interface. The top navigation bar includes the 'United States Census Bureau' logo, a search bar with 'DP03' entered, and a 'SEARCH' button. Below the navigation bar, there are tabs for 'ALL', 'TABLES', 'MAPS', and 'PAGES'. The 'TABLES' tab is selected, showing '1 Results' and a 'Filter | Download' link. The main content area is titled 'SELECTED ECONOMIC CHARACTERISTICS' and shows data for 'Colorado'. The table includes columns for 'Label', 'Estimate', and 'Margin of Error'. The data is organized into sections: 'EMPLOYMENT STATUS', 'Population 16 years and over', 'In labor force', 'Civilian labor force', 'Employed', 'Unemployed', 'Armed Forces', 'Not in labor force', 'Civilian labor force', 'Unemployment Rate', and 'Females 16 years and over'. A sidebar on the left contains links for 'Accessibility', 'Information Quality', 'FOIA', 'Data Protection and Privacy Policy', 'U.S. Department of Commerce', and 'Release Notes'. A 'CUSTOMIZE TABLE' button is located in the upper right corner of the table area. Red arrows point from the bullet points in the list to the '2018: ACS 5-Year Estimates Data Profiles' dropdown menu and the 'CUSTOMIZE TABLE' button.

# Navigate to Map

## Navigate to the map tab

- Click **Maps** in the upper left
- Click your table of interest
- Verify the map is set to the census tract level, and that it is zoomed to census tracts in the Denver County

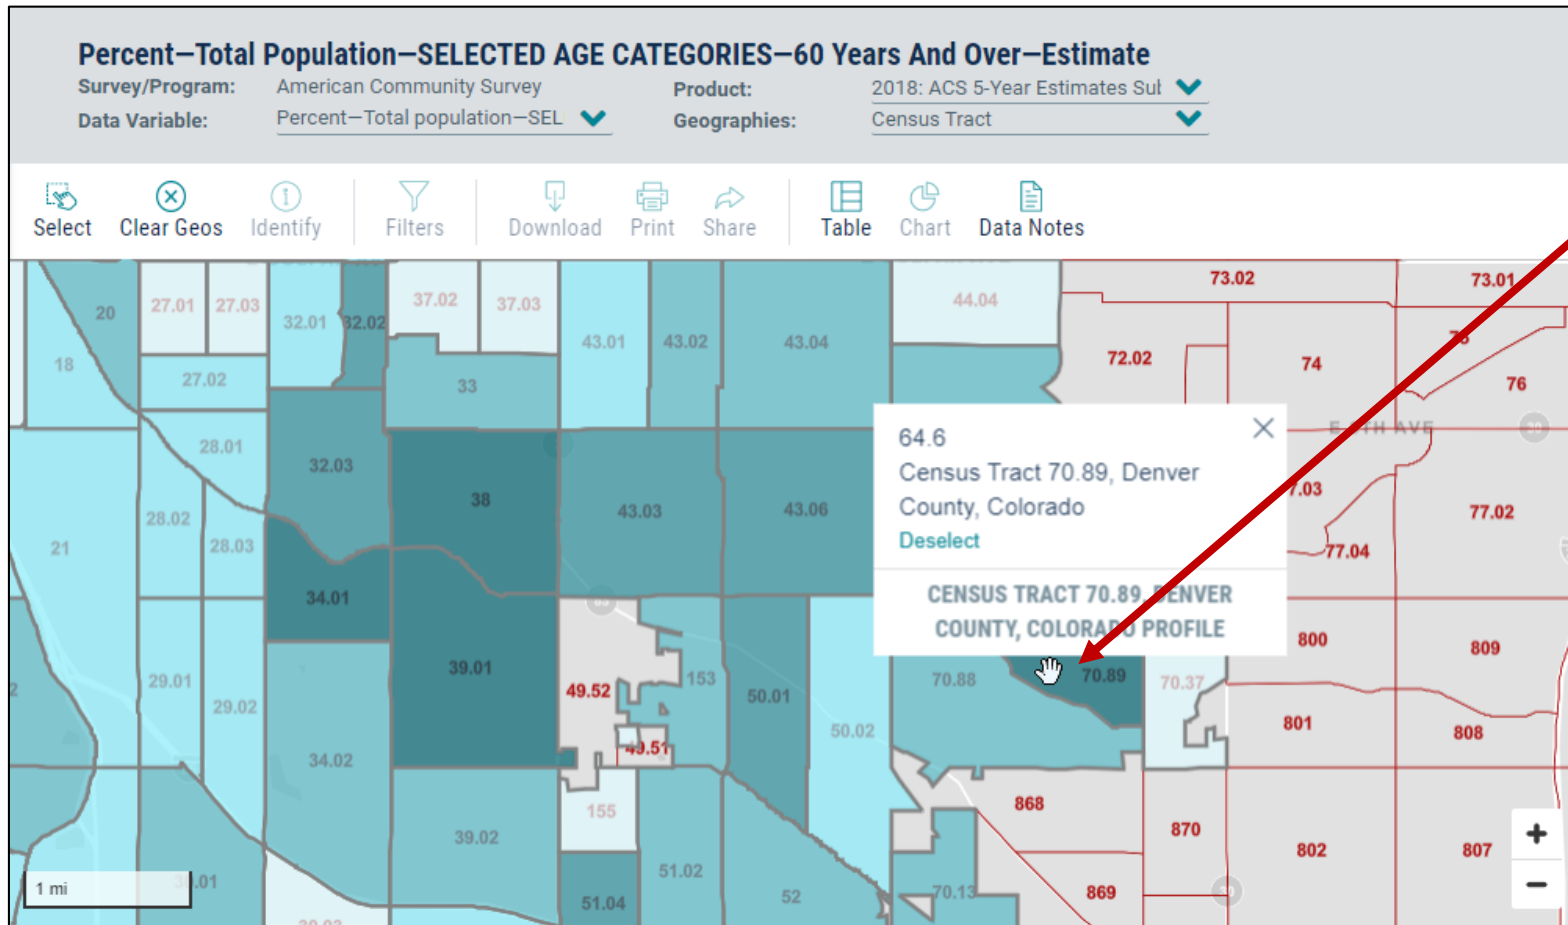

# Select Your Variable

## From the Map View

- Click **Customize Map**
- Select the **Data Variable** dropdown menu and **keep scrolling to the bottom** until you've loaded the full list
- Find and click the variable that says **Percent—Total population—SELECTED AGE CATEGORIES—60 years and over--Estimate**

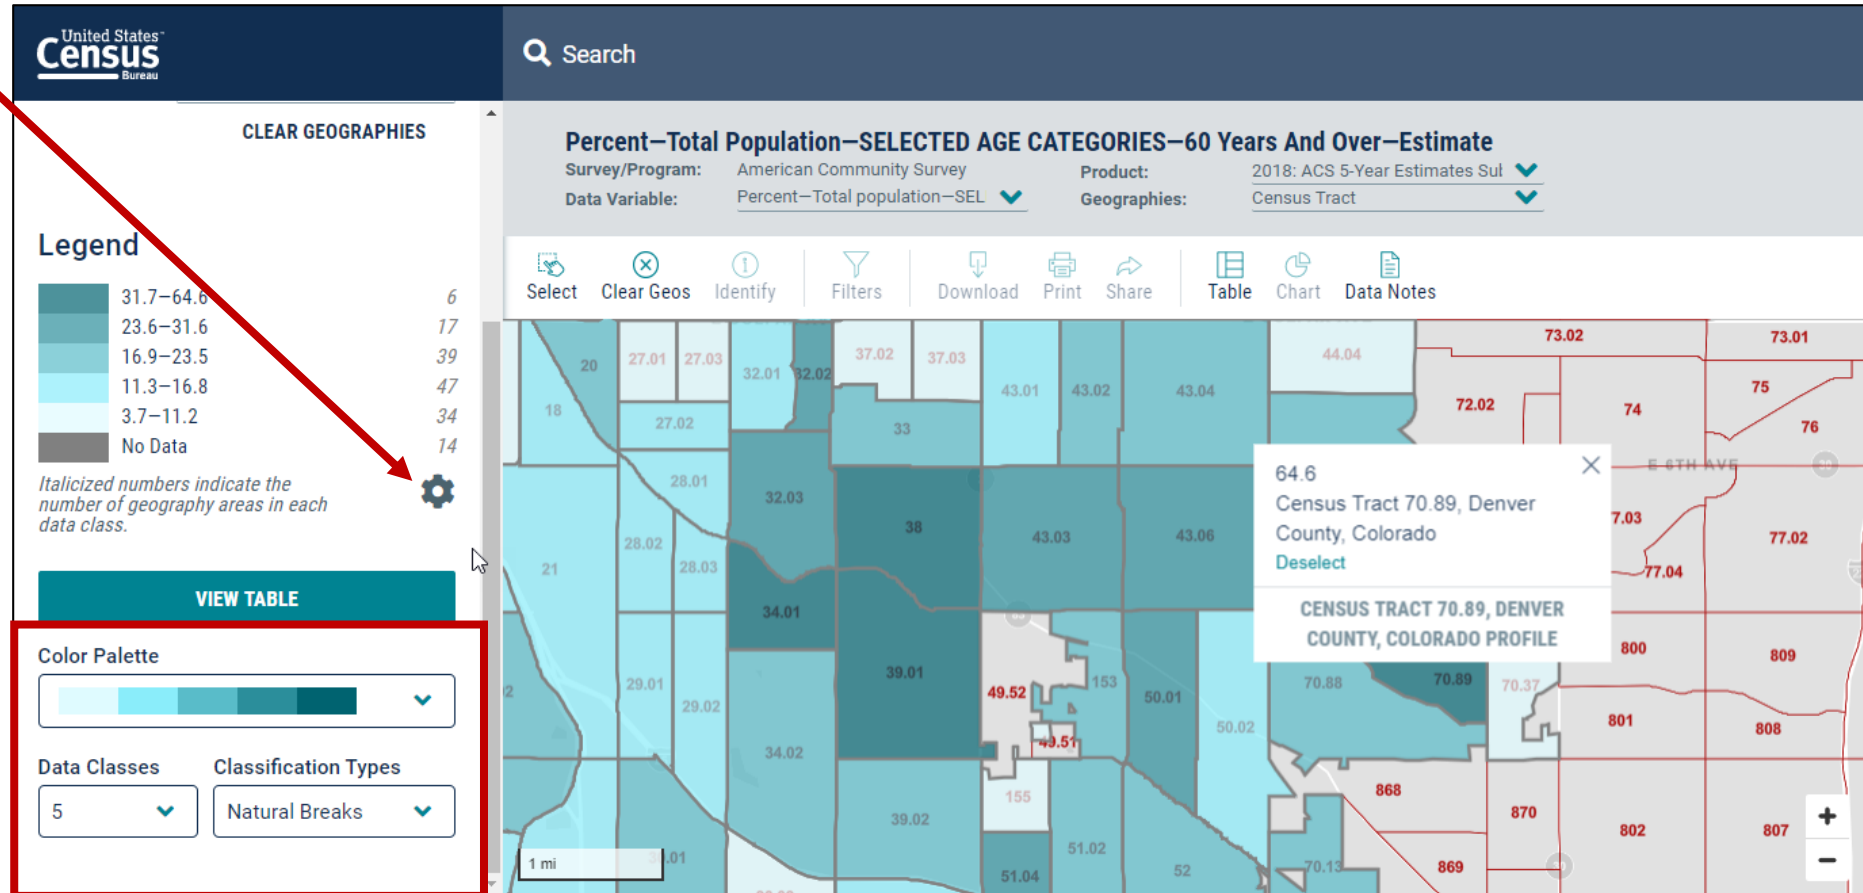

# View Map

- Click on the census tracts with the darkest shade of blue to see which census tracts have the highest percent of people age 60+

# Customize Your Map

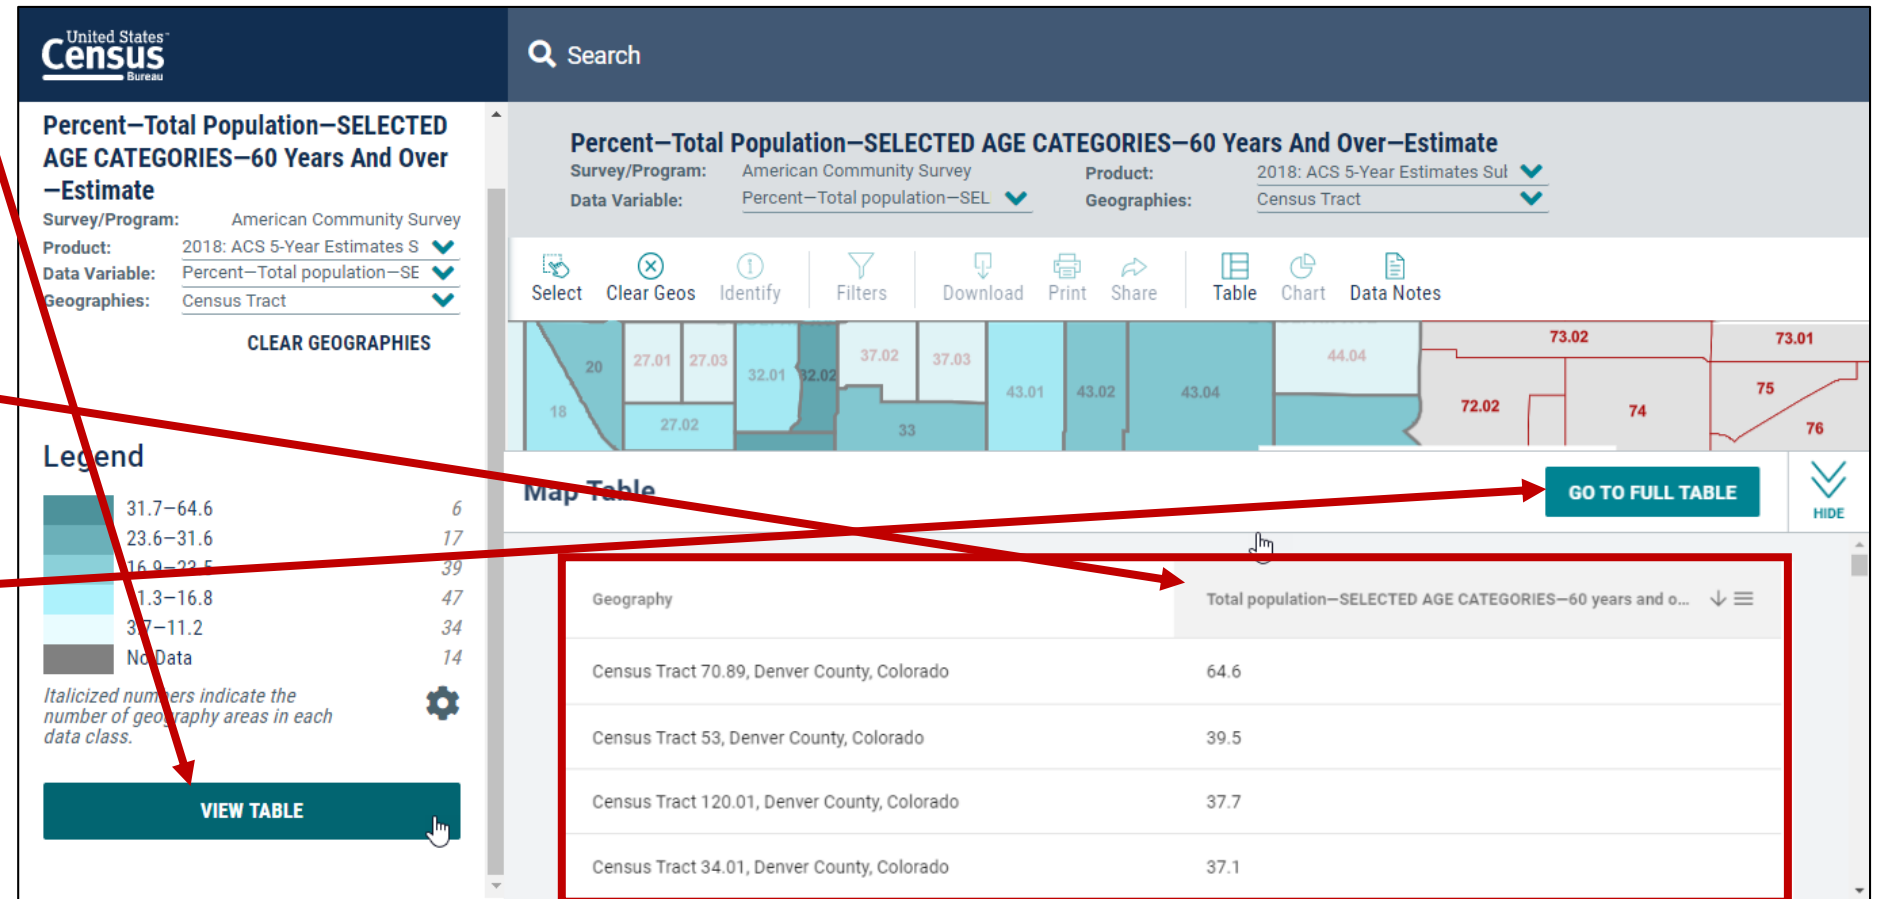

- Click the **Settings Icon** to make changes to the map settings
- Change the color palette, number of data classes in your legend, or legend classification type (Natural Breaks, Quantile, Equal Interval)

# Compare Your Variable Across Geographies

- Click **View Table** in the left navigation panel
- View table with all of your geographies. Click the column header for your variable to sort the data in ascending or descending order
- Click **Go To Full Table**

# Download Table

- Click **Download Table** from the Customize Table view
- Verify the years you would like to download
- Click **Download**

The screenshot shows the 'United States Census Bureau' interface for downloading tables. The top navigation bar includes the logo and a search bar. Below it, the breadcrumb trail reads '// Search / Tables / S0101'. The main title is 'AGE AND SEX', and the subtitle is 'Survey/Program: American Community Survey TableID: S0101 Product: 2018: ACS 5-Year Estimates Subject Tables'. A toolbar contains various icons for data manipulation, with the 'Download' icon (a square with a downward arrow) highlighted by a red arrow. Below the toolbar, the 'Download Tables' section is titled 'Select Table Versions'. It features a table with columns for years from 2010 to 2018. The '2018' column has a checked checkbox, indicated by a red arrow. Below this table, the 'File Type' section shows 'CSV' selected. The 'What You're Getting' section lists the contents: '1 .csv files (metadata)', '1 .csv files (data)', and '1 .txt files (table title)'. The 'Uncompressed Estimated Size: 779.0 kB' is displayed. A large blue 'DOWNLOAD' button is at the bottom right, with a red arrow pointing to it.

Data.census.gov: Release Notes [2.7 MB]

**Latest Updates**  
In August 2020, we released the following updates to the site:

- Incorporating filter chips more prominently into advanced search and in the single search bar. This update allows you to keep your previous filter selections when you edit your search in the single search bar.
- Table Display update for look and feel as well as column width updates
- Removal of table display to allow for more table results to be available in All Results Page
- More links and connections with MDAT
- Continued download improvements
- 46 defect resolutions. Highlights include:
  - The default pathway for zip code tabulation area (ZCTA) was corrected to take you down that pathway that provides the most data.
  - Improvements to help prevent the site from freezing when trying to display large tables.
  - The maps automatically zoom to your selected area in situations where a manual scroll was required in the past.

## Guidance for Data Users

data.census.gov is the new platform to access U.S. Census Bureau. The vision for data dissemination is to improve the customer experience by making a centralized place so that data users spend less and more time using it.

The vision for data.census.gov stems from over 10 years of U.S. Census Bureau has received to simplify the way data users know Census Bureau jargon or find the data that they need. In the past, prior to data.census.gov, the Census Bureau collected information, processed it through multiple websites and know how to navigate these sites and applications to the end results.

## Transition from AFF

### Transition From American FactFinder

American FactFinder (AFF) was decommissioned and taken offline on March 31, 2020. Data previously released on AFF are now being released on the U.S. Census Bureau's new dissemination platform, [data.census.gov](#). Since we are a developing site, not all the data from AFF have been migrated over to data.census.gov. Below is an overview of our data migration status that will be updated regularly.

AFF Data Sets Coming Soon to data.census.gov	Until then, find it here:
American Community Survey:	
2010 to 2015 1-Year Selected Population Profiles	
2011-2015 5-Year Selected Population Tables	<a href="#">Availability Spreadsheet</a>
2011-2015 5-Year American Indian & Alaska Native	
2010 Decennial Island Areas	<a href="#">FTP</a>
2000 Decennial SF2, SF3, SF4, Redistricting Data	<a href="#">FTP</a>

# Guidance for Data Users

## Frequently Asked Questions

Check out our Frequently Asked Questions to learn about using data.census.gov and the Census API. Find out what data, features, and functionality is available.

### What is data.census.gov?

**What is data.census.gov?**  
Data.census.gov is the new platform to access data and digital content from the U.S. Census Bureau.

**Why did the Census Bureau develop data.census.gov?**  
We are moving away from delivering data through many individual tools...

### General Questions

**When did American FactFinder (AFF) go away?**  
On March 31, 2020, our American FactFinder was decommissioned and is no longer available.

## Transition from DataFerrett

DataFerrett was decommissioned and taken offline on June 30, 2020. Data previously available on DataFerrett are now being released on the U.S. Census Bureau's new dissemination platform, [Microdata Access](#). Since we are a developing site, not all the data from DataFerrett have been migrated over to [Microdata Access](#). Below is an overview of our data migration status that will be updated regularly.

## Data Availability

### What data are available in the Microdata Access?

We continue to migrate data from DataFerrett. See a list of datasets currently available in the platform.

## DataFerrett Data Sets Coming Soon to Microdata Access

Columns may be out of order in downloaded data

Example: C27003 begins with the 17<sup>th</sup> row instead of the 1<sup>st</sup>

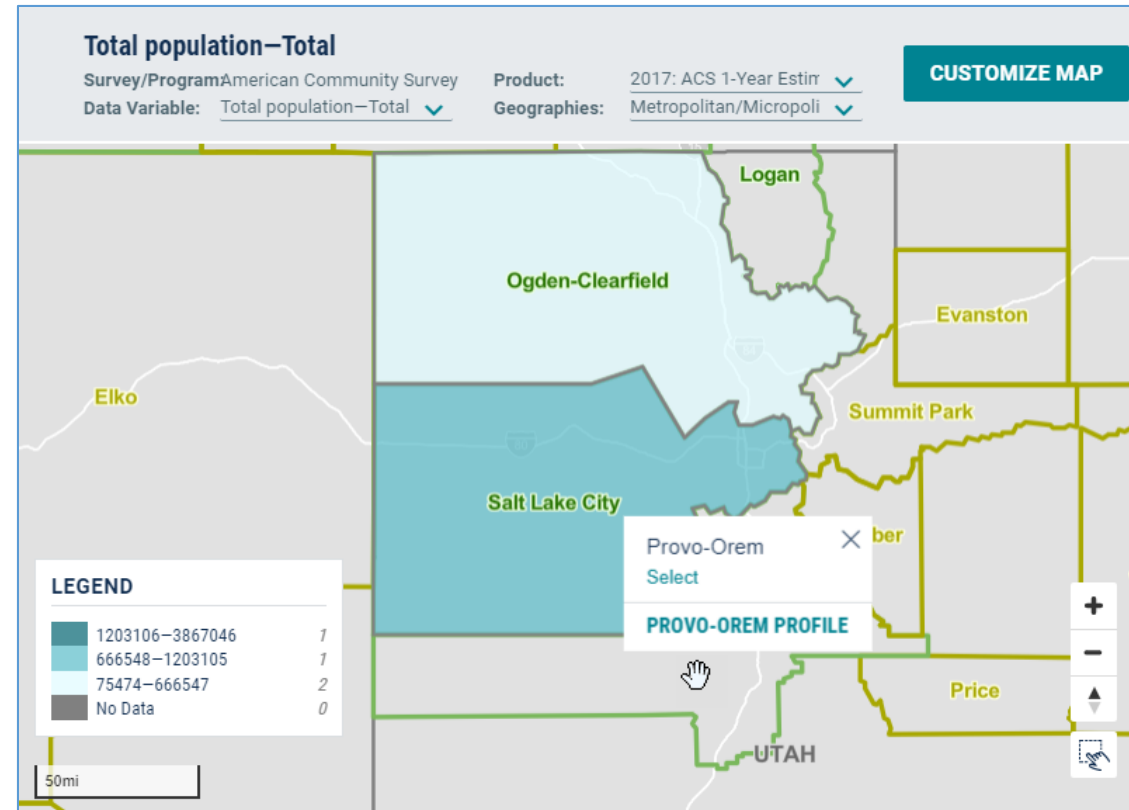

Geographies may not appear in alphabetical order

Example: Search for all states starts with Colorado

# Where Are the Checkboxes to Select All Geos in a List?

We do not have all the collections that American FactFinder had. While we work to add them:

- Use maps on data.census.gov to select individual geographies or small groupings
- Use FTP sites or API -- Guides on how to access these data through the API are available on our Resource Page at: [census.gov/data/what-is-data-census-gov.html](https://www.census.gov/data/what-is-data-census-gov.html)
- Tell us what collections you would like to see by emailing [cedsci.feedback@census.gov](mailto:cedsci.feedback@census.gov)

# How Can I Find the Geographies for an Address?

To find the census tract or other geographic areas associated with a particular address:

- Use the [Census Geocoder](#) and reference [FAQ KCP-5495](#)

How long does it typically take you to find what you are looking for on data.census.gov?

☐ Less than a minute

☐ 1-3 minutes

☐ 4-9 minutes

☐ 10-30 minutes

☐ More than 30 minutes

Once you arrive on data.census.gov, typically, what is the first thing you do?

☐ Enter table ID, keyword, or question into the search bar

☐ Use advanced search

☐ Click on a link

☐ Sort or filter results

☐ Plot or download data

How satisfied are you with the **features and functionality** in data.census.gov?

Extremely satisfied (1)

(2)

(3)

(4)

(5)

(6)

Extremely dissatisfied (7)

When thinking about the **features and functionality** in data.census.gov, what improvement(s) would be most important to you?

United States

### What is Microdata and Why Should I Use It?

Microdata are a set of untabulated records about individual people or housing units that can be used to create custom tables.

# Application Programming Interface (API)

You can use the API to get results for a few estimates or an entire table, and view your results in Google Chrome or .csv. Learn more at [census.gov/data/what-is-data-census-gov/guidance-for-data-users/how-to-materials-for-using-the-census-api.html](https://census.gov/data/what-is-data-census-gov/guidance-for-data-users/how-to-materials-for-using-the-census-api.html)

## How-to Materials for Using the Census API

Do you have questions on how to use the Census API? Check out our step-by-step guidance to learn how to use the Census API to find the data you need. To learn more about the Census API, and to begin using it to locate data, visit our [Census API Developers](#) page.

### Census Data API User Guide

This user guide instructs developers and researchers on how to use the Census Data API to request data from U.S. Census Bureau datasets.
